

## **Basic guidelines for PAW Dog Walkers and PAW Dog Fosters**

### **When walking a PAW dog, PLEASE**

- **ensure your PAW dog is wearing a collar with a PAW ID tag, the harness is a snug fit, and the leash is securely attached to the harness**
- **hold the leash by placing one hand through the loop handle, leaving the thumb outside the loop, and grasp the leash firmly; use your other hand to hold further down the leash (always hold the leash with two hands)**
- **do not let go of the leash, for any reason!**
- **tether your PAW dog whilst travelling in the car for your and the dog's safety (one method is to slip the seatbelt through the leash loop and then click the seatbelt)**
- **offer your PAW dog water in hot weather and do not leave a PAW dog unattended in a car, especially in hot weather**
- **always carry plastic bags and pick up your PAW dog's poop.**
